We would not hold winter Olympics in mid-June nor would we expect flowers to bloom in mid-January. Wouldn't it be ridiculous to look for fall colors in April, or spring thaw in August? Then, why do we celebrate Maidyozarem (Mid-Spring) Gâhambâr in early fall? and Navrooz (first day of spring) in mid-Summer? Let us explore and appreciate "***Mazdayasni Calendar***"; a Perfect Calendar, as revealed to us in Bundahishn. Get in tune with nature – follow Nature's calendar.

Presenter: Fariborz Rahnmoon

Born in Yazd and educated in Mumbai, Fariborz has gained a unique perspective on Zoroastrianism through 40 years of research. Since 2015, he has compiled and published the *Mazdayasni Calendar* based on the Bundashshn. This unique calendar is available at www.zarathushticalendar.com.
